

SOME VIEWS FROM MEXICO.

By Rev H. L. Ross.

All of us are interested in Mexico now, because the 23rd of May is Children's Day, and the "Graybill Memorial School" for Mexican boys is to be the object of special prayer and study and contributions.

The Matamoros Presbyterian Church.

Dr. A. T. Graybill began his mission work in Matamoros in 1874, and preached here for several years. This church building is more than thirty years old. Back of the pulpit is a tablet which was placed there by the Presbytery of Tamaulipos in memory of Dr. Graybill.

Don Guadalupe R. Garza has served as deacon of the Matamoros church about as long as the building has been there. He writes on the blackboard careful

monthly reports of all collections; and besides, he is the very faithful sexton of the church.

Boarding Pupils of the Matamoros Girls' School.

Intimately associated with the history of the church is that of the Matamoros Girls' School. Miss Annie E. Dysart has given twenty-seven years of arduous work to it. The above picture shows the girls of the Home; besides which there is an enrollment in the day department of over one hundred.

The Boys in the Matamoros School.

Though a "Girls' School," it has been almost necessary to take in boys, because of our lack of a boys' school.

Note by Dr. Chester:

There is no single enterprise connected with our work in which the Foreign Mission Committee is at present more deeply interested than the Graybill Memorial School.

The work that is waiting for this school has been well set forth in a small leaflet that is included in the package of Children's Day Exercises. We have reached the point when it is absolutely essential to the success of the work we are trying to do in Mexico. We trust that in one week from the date of Children's Day we will be able to send a message to Mr. Rose authorizing him to proceed with the purchase of a site for the school where there will be all the water that is needed and every other feature that is required for its successful operation.
